I. ABSTRACT

Your goal is to prepare an extended abstract for submission to the *1st^h Natinal Conference on Hydrology with Special Emphasis on rain water Harvesting (NCHRWH2013)* and publication of it in the proceedings. For additional information, please contact by e-mail at nchrwh-2013@poornima.org.

A. Full-Sized Camera-Ready (CR) Copy

Prepare your CR abstract in full-size format, on A4 paper (210 x 297 mm).

Type sizes and typefaces: Follow the type sizes specified in Table I. Times New Roman is the preferred font.

Margins: top & bottom = 25mm, left & right = 20 mm.

The column width is 82mm (3.23 in). The space between the two columns is 6mm (0.24 in). Paragraph indentation is 3.5 mm (0.14 in).

Left- and right-justify your columns. Use tables and figures to adjust column length.

B. Pages

You are requested to limit the extended abstract to a maximum of two pages.

TABLE I.
TYPE SIZES FOR CAMERA-READY PAPERS

Type size (pts)	Regular	Italic
8	Table captions,* table superscripts	
10	Section titles,* references, tables, table names,* first letters in table captions,* figure captions, footnotes, text subscripts, and superscripts	
12	Authors' affiliations, main text, equations, first letters in section titles*	Subheading
13	Authors' names	
24	Paper title	

* Uppercase

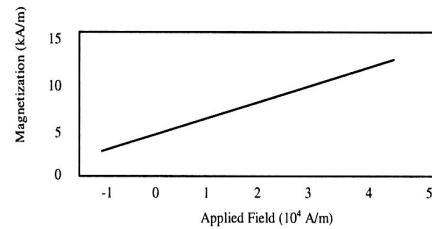

Figure 1. Magnetization as a function of applied field. Note how the caption is centered in the column

C. Figures and Tables

Figure captions should be centered below the figures; table captions should be centered above. Put units in parentheses on the figure axis labels. Please prepare your figures with consideration they will be reproduced in the black & white proceedings. Color figures will not reproduce well in black & white. Please use shades of gray, line thickness or dashes to compare data in line graphs. Figure label fonts should be ≥ 10 -point type.

D. Equations

Number equations consecutively with equation numbers in parentheses flush with the right margin, as in (1). Italicize Roman symbols for quantities and variables, but not Greek symbols. Use parentheses to avoid ambiguities in denominators. Punctuate equations with commas or periods when they are part of a sentence, as in

$$a + b = c . \quad (1)$$

II References

Number citations consecutively in square brackets [1]. Punctuation follows the bracket [2]. Refer simply to the reference number, as in [3].

Give all authors' names. In a paper title, capitalize the first word and all other words except for conjunctions, prepositions less than seven letters.
