Report on Outside participation in Talk Journalism-2017

Talk Journalism-2017 was held at Hotel Fairmount, Kukas, Jaipur from July 28-30, 2017. A not for initiative, Talk journalism is a platform to discuss and debate media. There were 73 speakers 43 session and around 3500+ audience in the festival. I participated in the festival as a volunteer. I was responsible for the speakers registration and to facilitate them. I learned a lot about venue management, time management and different management skills. On day-1 festival started with a great energy and we had a lot of work to do as it was a first day and we have to be prepared with all our task done on time. All sessions run smoothly. On day-2 we have to take care of the speakers flight schedule so that they reach the venue on time and the speakers who finished up with their session flight schedule too so that they catch their flight on time. On day-3 of the festival I have to take care of proper check-out of the speakers and their flights. Entire three days I was involved with the speakers and learned a lot from them, I got the chance for a personal interaction with many speakers over there.
