#### **A Brief Report of industrial visit- Radha Raman Industries**

Department of Mechanical Engineering organized an industrial visit to **Radha Raman Industries**, Plot No. H 151, Behind Bharat Gas,, Road No 14, VKI, Badharna., Vishwakarma Industrial Area, Jaipur, Rajasthan 302013, on Jan 25<sup>th</sup>, 2017. Radha Raman industry is the first to manufactured plastic emulsions on stainless steel accessories which has extremely long life as compared to other accessories manufactured in India.

The basic objective of this activity was to know theoretical terms of manufacturing and machines with practical exposure and the to know about the industry approach.

Total 40 students along with a faculty member Mrs. Asha Kumawat under the guidance of Mr. Sanjay Kumawat visited the same. Mr. Anirudh Tiwari, Director, of to Radha Raman Industries welcomed the students and faculty member. He explained about the products manufacture in industry, working of machines and market demand. Mr. Anirudh also takes a 30 min session to explain about the start up ideas, its implementation and marketing strategy.

Radha Raman manufactured active 4G guard Kit set comprising of 3 fitments. Front bumper or front maul fitted on the front guard, the left and right side body beading on the front amour (fitted on the front body panels from the side), the all round rear guards (fitted on the rear body with W Fitting).industry manufacture the products using Jindal stainless steel 202 Grade only, which is the best in term of quality and cost efficient and long lasting too. Radha Raman introduce first time in India plastic emulsion on stainless steel which marks our product as out of the box finish and shine. This makes our product as rust proof and also has a better shining effect apart from lasting long as compared to any other powder coated product which is generally made on stainless

steel material. Interaction session regarding start up of students and Mr. Anirudh also fruitful, this visit definitely enhanced the knowledge of the students and faculty.
