Report

On

“Emerging Trends in Lighting & Energy Efficiency”

A One Day seminar on “Emerging Trends in Lighting & Energy Efficiency” was successfully organized **on Saturday 2nd May, 2015** at Poornima College of Engineering, Jaipur.

Various experts from industry like transformer manufacturing, lighting, software etc. shared their ideas and opinions with more than 200 students of PCE College. This event was sponsored by ISLE student chapter.

Chief Guest Mr. R S Saxena chairman ISLE reported his views on working & structure of ISLE all across Rajasthan.

Events started off with the traditional process of lamp lighting. **Dr. Om Parkash Sharma, Director of PCE shared his views on “availability of opportunity & our need and wants”**

This seminar was a complete blend of technical knowledge and motivational, entrepreneurial sessions. Technical session was followed by **Mr. Hitendra Rathore & Dr. Manoj Gupta** emphasized on different topics related to MATLAB & lighting trends. Views on Entrepreneur skills were given by **Mr. L. B Sharma** & who differentiated between skills, talents & knowledge moreover he focused on some questions which should be asked from ourselves when we go for any industry.

Mr. B.M. Chandana, Director GIS, Inspired students to open up their thinking process & believe in the process of creation.

Session ended with the rhythm of “Poornima Gaan”
