

NEN Entrepreneurship 30 HrsCapsule Course "ILLUMINATE"

KRYPTON E-CELL, PIET is happy to launch "A Basic Capsule course of Entrepreneurship for Engineers" with the active support of Preeti Singh Mam (NEN Network Manager - Student Entrepreneur Support) and Prof. Ajay Kumar Bansal (Director, PIET). This course is designed to spread knowledge of entrepreneurship during Capsule Course of Entrepreneurship in Poornima Institute of Engineering and Technology from 27 Jan to 31 Jan 2014. This is a five day course exclusively designed to help Engineering & Technology Students to unravel the entrepreneurial process for technology ventures. The course aims to help students integrate entrepreneurship with engineering education on campus.

Objectives: The course aims to help participants understand how to:

- Integrate entrepreneurship with engineering education
- Successfully commercialize innovations
- Build business models that will turn prototypes into products
- Write business plans and raise funds for technology based ventures
- Capture value from knowledge by protecting Intellectual Property Rights
