

POORNIMA FOUNDATION

4th November 2015

Report On Third Day Of PRAYOGAM 2015

Students from different schools of Jaipur like St Joseph Convent School, Jaipur Cambridge Court, TPS Shastri Nagar, Indian Cambridge School, etc. visited the third day of Prayogam. A number of outstanding projects were showcased by poornimaites, which included static models, dynamic working prototypes based on electronic circuitry, robotics and software projects, life size racing-cars etc.

The main focus of all projects was on circuitry. In spite of such a big crowd the event was totally under control under the guidance of respective faculty coordinators. Different projects like smart city, aeromodelling, water rocketry, machine mania etc. were displayed. Today the manger of Startup Oasis also visited the place. They saw the startups of Poornima Foundation and gave their valuable suggestions for the further progress.
