15th September, 2015

Report on Engineers Day Celebration

Engineering is not merely knowing and being knowledgeable; engineering is not merely analysis; engineering is not merely the possession of the capacity to get elegant solutions to non-existent engineering problems; engineering is practicing the art of the organized forcing of technological change.

Engineers operate at the interface between science and society. To identify the great works done by our hard working engineers each year 15th September is celebrated as Engineers' Day marking the birth day of Sir Mokshagundam Visvesvaraya, recognizing his contributions in the field of hydel energy in India.

On this occasion, Department of First year also organized a **Debate Competition** at individual class level followed by **group activity at PF level**. A summary is given here:
