यत्र नार्यस्तु पूज्यन्ते रमन्ते तत्र देवता:

Save Earth

Save Water

Save Fuel

Save Energy

VISION

To improve the status of women in our society and to make them aware of their rights.

MISSION

To evolve and develop skill based systems in PCE showcasing different activities to groom their overall personality.

OBJECTIVE

To increase the number of women perusing and graduating in science, technology, engineering and to promote the recruitment and advancement of women who have chosen academic careers.

"Empowering women is not just the right thing to do – It's the smart thing to do .When women succeed, nations are more safe, more secure and more prosperous."

I am glad to learn that the PCE is bringing out its first issue of WISE newsletter PCE-WISE for sharing of ideas and information as well as for creating awareness among the people. WISE provides an important platform for promoting female talent, particularly in science, technology and life skills.

I congratulate the team and members for organizing seven different activities of WISE focusing on various relevant issues for women like health, self-defense, cultural, enthusiasm, creativity etc. to empower the women force.

I hope that PCE-WISE will attain greater heights of excellence in years to come.

I wish it all success.

Dr. S. M. Seth
Chairman, Poornima Foundation,
Chairperson, Poornima University
(Former Director, NIH, Roorkee)

Jai Jai Poornima Sansthan. Jai Hind!

"I believe that if a woman succeeds in withdrawing from the mass, or rather raising herself from above the mass, she grows ceaselessly and more than a man."

I am overwhelmed to know that PCE is releasing its newsletter PCE-WISE for showcasing the activities of Girl Engineers. As a citizen of modernized India, it's hard to witness the injustice or more specifically the unethical attempts which are yet alive in women. A woman is not just a woman by gender but possesses enormous onuses on the society as a mother, daughter, sister, wife and many more. It is essential for all women to come forward to mark their individuality in this highly competitive world.

I congratulate everyone actively involved and wish success in all future endeavors.

Jai Jai Poornima Sansthan. Jai Hind!

Sh. Shashikant Singh
(Director General, PF)

"Whenever you see a Successful Person, You see the Public Glories, Cannot see the Sacrifices for that Success."

I am glad to convey my message through this newsletter PCE-WISE to all faculties, staff and students of energetic team of WISE.

Dear students, some persons are naturally gifted with the ability to express their thoughts effectively and impress the listeners. But even if you do not have such ability, you can impress everyone. You can improve your language considerably by choosing your words carefully; keeping your language clear and concise; will make other understand what you are trying to convey. Your language can be more impressive and expressive, if you illustrate it with examples from real-life experiences. Simplicity can also be cultivated by constant practice, as it is your belief in yourself and your dedication to what you want to do. Your "simple living and high thinking" attitude can do wonders. Nothing is simpler than greatness; indeed to be simple is to be great. If you are keen to achieve your goal you should give importance to three keywords – awareness, beliefs and commitment. These are the keywords which lead to greater self-knowledge, a deeper understanding of others and a firmer grasp on how your words and behavior impact other people. Recognize the limiting beliefs that impede your achievement. Thereafter, you should overcome the obstacles to changing limiting beliefs. It may be a painstaking exercise, but you should try your best to complete it.

A quotation for all my budding technocrats...
"Do not measure yourself by what you have accomplished but by what you should have accomplished with your ability."
Till next Newsletter all the best!

Jai Jai Poornima Sansthan. Jai Hind!

Dr. Om Prakash Sharma
(Director, PCE)

या देवी सर्वभूतेषु विष्णुमायेति शब्दिता ।
नमस्तस्यै नमस्तस्यै नमस्तस्यै नमो नमः ॥

WISE provides a conducive environment for effective growth of girls helping them discover their true potential to bring out their inherent skills through meaningful activities. I take this privilege to congratulate the WISE family on the release of newsletter PCE-WISE.

Dr. Kanta Ahuja
Member, PJF Advisory Board

The goal of WISE is not to just churn out success machines but to bring up empathetic and conscientious women who will be able to keep the flag of Indian values and culture flying with dignity and grace. It gives me immense pleasure to see the work, creativity and foresight in the form of the newsletter PCE-WISE.

Mrs. Renu Singh
Advisor, Poornima Alumni Association

In a country where women were once equated with divinity, and where even today Goddesses are worshipped prominently, the woman in India is a cause for both grave concern as well as thoughtful deliberation.

After so many years of independence, gender based discrimination and stratification is rampant. While India has become a strong economic powerhouse, the benefits have unfortunately not trickled down to women in equal measures. True empowerment remains elusive to women, and women-specific development challenges thus have become more relevant than ever. Women have been an integral part of the society, WISE is simply a step to nurture woman force in front. I wish it may go far beyond the imagination.

Dr. Shuchi Dave
Coordinator, WISE

It is really wondrous to see the progress and contribution of women in development of the society. Their ever increasing number in every sphere of life is a vibrant example of their potential and excellence of working. No doubt, this is their work and significant dedication that have made their participation universally acknowledged. Hope the effort of WISE will always be proven as milestone, both for the existing and upcoming generation.

Ms. Anchal Sharma
Co-Coordinator, WISE

FROM THE EDITOR'SPEN

"I am no bird; and no net ensnares me: I am a free human being with an independent will."

PCE-WISE is a reflection of the efforts made by the institution towards chiseling the future of the country, that is, the women. The college proudly claims to have achieved landmarks in encouraging women perusing science to grow and develop.

This year PCE-WISE introduced the concept of clusters to encourage maximum participation in maximum activities to promote overall development of girls. This Newsletter contains the various activities and initiatives taken by PCE-WISE to motivate and strengthen girls and women of Poornima College of Engineering. It covers the data of the various clusters formed under PCE-WISE and the girls

who have proven themselves in various areas of life.

On my part I've got a brilliant chance to write about women, as the editor of this Newsletter. Through the pages of this newsletter let us transverse back and rejoice our achievements. I extend gracious thanks to all those who have contributed in different ways to bring out this Newsletter.

I wish all the very best to each and every girl and wish them to be strong, be motivated and to show the world-YOU ARE THE POWER OF THE NATION.

Ms. Ranjana Kanwar Rathore
Editor-In -Chief

ABOUT FORMATION OF WISE AT PCE....

Women are the foundation of every society. Women can do a lot in the society, what is needed, she herself should identify her strengths and work on it to build a strong society. A woman can change anything but women can change everything. "WOMEN ARE THE REAL ARCHITECTS OF SOCIETY". So, women at PCE have clasped and formed club-Women in Science and Engineering (WISE) to propagate importance and relevance of women education in science and engineering . This year PCE-WISE has introduced the concept of clusters to encourage the maximum participation of girls in maximum activities and to promote their overall development.

WISE AIMS....

- To increase the number of girls and women studying Science, Engineering and Technology and to help them in progress in related careers.
- To develop women’s technical and entrepreneurial skills through training initiatives and projects.
- To visit various institutions to enhance the knowledge.
- To give girls of PCE a chance to attend the various workshops for enhancement of their skills.
- To release Bi-annual newsletter to showcase the projects handled by our team.
- To brush up the hidden talents of girl students at PCE.

PCE-WISE CLUSTER WHEEL

Objective

The Habit and Habitat cluster aims at maintaining a green and clean environment. The cluster helps to make people aware about the importance of cleanliness and maintaining good habits.

“A Clean environment is a human right like any other. It is therefore part of our responsibility towards others to ensure that the world we pass on is as healthy, if not healthier, then we found it.”- Dalai Lama

“Cleanliness is next to Godliness”

The need of the hour is to maintain a clean environment for a healthy life. To promote this idea the health club of WISE organized a “Swachh Bharat Abhiyan” and an activity of “Tree Plantation to make people aware about the importance of cleanliness and consequences if cleanliness is ignored.

Swachh Bharat Abhiyan

On Thursday, 19th February, 2015 a campaign was organized at PCE with a message to keep clean and make green environment.

It also aimed to promote the campaign of “Swachh Bharat Abhiyan” initiated by Mr. Narendra Modi, Prime Minister of our country. The campaign was followed by Tree-Plantation in college Campus and was later followed by a “Nukkad Natak” which was performed at college canteen with a message concerning Food Wastage in parties and in marriages.

Dr. Om Prakash Sharma, Director PCE and Ms. Renu Singhi (Chief Advisor Poornima Alumni Association) motivated the students by their words of wisdom. They appreciated the initiative taken by the girl students.

Tree Plantation

Which trees should I plant?

Trees are important tools in the fight to stave off global warming, because they absorb the major greenhouse gases emitted by our cars and power plants, carbon dioxide (CO₂), before it has a chance to reach the upper atmosphere where it can help trap heat around the earth surface. While choosing trees to plant we should consider:

- Fast growing trees store the most carbon during their first decades.
- Long-lived trees can keep carbon stored for generations without releasing it in decomposition.
- Large leaves and wide crowns enable maximum photosynthesis.
- Low-maintenance, disease-resistant species do better without greenhouse-gas-producing fertilizers.

Yellow Poplar or Tulip Tree is the top carbon-store, other than this **Silver Maple, Oak, Horse Chestnut, Red Mulberry, London Plane, American Sweetgum, Dogwood, Black Walnut, Blue Spruce, Pines** etc.

Objective

To enhance the home science skills in girls making them fit and smart to survive in a fast moving world like today's.

“To keep the body in good health is a duty... otherwise we shall not be able to keep our mind strong and clear.” - Lord Buddha

In the fast moving world like today's it is important for the working women to maintain great strength and good health. To increase the awareness about women health related issues a one hour lecture by a gynecologist was organized by the home science **club of WISE**.

Expert Talk on Women Health Related Issues

A one hour special lecture by **Dr. Shalini Sharma** on “**women health related issues**” was organized on March 3rd, 2015 for female students of first year department, PCE. The objective of the lecture was to prepare girls for a fast and active life and to create awareness among the girls regarding health related issues, symptoms and its easy remedies. The Expert of the day Dr. Shalini Sharma discussed the health issues faced by a woman in different spheres of life with symptoms and solutions. The lecture was informative and educating. The session was succeeded by the question answer round in which the students and faculty members asked their queries which were brilliantly answered by the expert.

How to Keep Spring Veg Garden Fresh

Freezing is the best way of preserving a season's bounty to enjoy later. When properly frozen, vegetables retain all their flavour and nutrients. The best method of freezing is the same for peas, runner, French, dwarf and broad beans, asparagus and broccoli.

Freezing Method:

In a large pan of water, boil a handful of vegetables for 30 seconds. This will stop them going brown when frozen. Using a slotted spoon, scoop them out into a bowl of heavily iced water. Once chilled, drain the veg and scatter onto a tray lined with kitchen paper. Freeze on the tray then transfer to a freezer bag. Cook the vegetables from frozen in a large pan of boiling water. Do not steam, as they tend to go soggy.

“ To make people who have no appetite to eat, to make the wit of those who have it sparkle, to enable those who want these qualities to find them - this is the supreme science of a gastronome host.”— Lucien Tendret

Welcoming the Guests

Objective

To be a “welcoming, social club with the society at its heart”. It focuses on the social visits like visiting NGO’s , Hospitals etc. To create and foster a spirit of understanding among the people of the world.

“We know only too well that what we are doing is nothing more than a drop in the ocean. But if the drop were not there, the ocean would be missing something.” – Mother Teresa

The less privileged students are more prone to deadly diseases like swine-flu and as they are not aware of the methods to protect themselves. As they can’t afford proper treatment so the social club of WISE took an initiative to make them aware of the precautions and early symptoms of swine-flu.

Program on: Awareness of Swine-flu

On Saturday, 21st February, 2015 a social activity was performed under Social club ‘Muskaan’ of WISE with the intention of spreading awareness about Swine-flu in Government Girls Sr. Sec. School, Shivdaspura, Jaipur. Ms. Shazia Haque and Ms. Pooja Seth along with student volunteers visited the school and gave a presentation on Swine-flu and also discussed the remedies for prevention. They distributed masks, antiseptic soaps and chocolates to the students. The aim of this activity was to promote the campaign of “Awareness of Swine-Flu” among the school as well as college staff.

Volunteers helping school children.

Felicitation

Emergency Helpline Numbers

Garima help line	- 1090	Help in suffering animals	- 0141-2760012, 0141-3245673
Child Line	- 1098	Blood Bank	- 0141-2721771
Ambulance	- 108, 102	Railway Enquiry	- 139, 131, 132
Fire Brigade	- 101	Telephone Complaint	- 198
Police	- 100	SMS Hospital	- 0141-2518234
		Jaipur Bus City services	- 18001806050

Objective

This cluster is meant to promote the knowledge of students about new emerging technologies and to aware the students about the importance of technical knowledge.

In a tech savvy working environment it is very important for a working women to master the art of preparing and presenting a presentation. To encourage this technical club, WISE had organized a power point presentation competition.

Power Point Presentation Competition

On Monday, 23rd February, 2015 an activity was organized at Poornima College of Engineering with a message of enhancing technical skills of students of PCE Campus. Dr. Om Prakash Sharma, Director PCE motivated the students by his words of wisdom. He also appreciated the initiative taken by the girl students of various department.

The aim of this activity was to promote the knowledge of students about new emerging technologies in engineering and computer science fields and to make the students and all the working members of Poornima aware of the importance of technical knowledge.

In this activity students prepared PPT and gave knowledge about new technologies in computer science field.

S. No.	PPT Topic	Name of Students	Branch	Position
1	Optical Illusion	Ankita Kumari	III yr., CS	1st
		Diksha Goyal		
		Diksha Kumari		
		Pragya Sanjana		
2	Ethical Hacking	Nidhi Solanki	III yr., CS	2nd
		Jagrati Lalwani		
		Kritika Jaiswal		
		Srishti Choudhary		
3.	Android	Pallavi Kumari	III yr., CS	3rd
		Neha Pant		
		Pooja Priya		

Mystery of Women Inventors

Talking about the women in science and technology field then it's a big mystery about name of women inventors. There are many women inventors but we'll probably never know how many. That's because in the early years of the United States, a woman could not get a patent in her own name. A patent is considered a kind of property, and until the late 1800s laws forbade women in most states from owning property or entering into legal agreements in their own names. Instead, a woman's property would be in the name of her father or husband.

For example, Sybilla Masters was the first American woman inventor in recorded history, no doubt women have been inventing since the dawn of time without recognition. In 1712 she developed a new corn mill, but was denied a patent because she was a woman. Three years later the patent was filed successfully in her husband's name.

Objective

The purpose of this cluster is to make girls healthier, fitter and more active. The cluster focuses on making exercising, workout with fun.

In a vast developing world it is necessary for women to be acquainted with the market and current scenario. So to make girls familiar with marketing strategies fun club –WISE organized an ad –mat competition. A rope skipping competition was also organized to increase the physical strength of girls.

Ad-Mad and Rope Skipping

Saturday, 28rd February, 2015 an activity was organized at Poonima College of Engineering, under FIT N FUN cluster of WISE with a message to enhance the marketing skills of girl students of. In this activity two events were planned one was Rope skipping and other advertisement which was named ad-mad. The aim of Ad-Mad was to enhance the marketing skills in girl students .The other activity Rope skipping competition was to measure the stamina of girl students and it was focused to gain confidence about their stamina to stand in physical activities. To encourage the students senior faculties of various departments Dr. Suchi Dave (Co-ordinator ,WISE), Mrs. Sarika (Asstt Prof.,EC dept), Dr. Veena Yadav (Professor,CSE Dept), Mrs. Meena Tekriwal (Asstt. Prof.) were present over there.

You Made Us Proud

Ad-Mad

- 1st Prize-Shreya Sharma & Group (I yr., CS)
- 2nd prize- Sonal Mathur & Group (I yr., CS)
- 3rd prize-Himani Kalal & Group (I yr., CS)

For Rope skipping

- 1st prize-Rini Sharma (I yr., CE)
- 2nd prize-Shweta Meena (I yr, CE)
- 3rd prize - Neetu Sharma (I yr., CS)

Felicitation of Guests

Objective

The cluster's intention is to enhance the creativity and exploit the hidden talents of the young girls.

Being a technical student the girls must not give up their hobbies and creativity and should not let their zeal and enthusiasm die. So to make sure that the girls live up to their full potential cultural club- WISE organized a logo designing and hair styling competition.

Hair Style Competition

A Hair Style making and Logo/T-Shirt painting competition was organized by WISE coordinators and faculty members Ms. Smriti Sachan and Ms. Shikha Shrivastava under the cluster 'Vivacious' on 23rd February, 2015.

Dr. Om Prakash Sharma, Director, PCE was invited as special guest. His presence boosted all the teams.

Students came out with a new creativity and beautiful & glamorous styles. It was blend of both Indian as well as western styles. The event continued for 20 min and at the end Ms. Nisha Acharya, Assistant Professor, EC Department was invited for judgment. She judged all the teams on various criteria such as creativity, presentation, neatness and discipline and was given a memento as a symbol of respect by Ms. Anchal Sharma, Co-Coordinator wise. The whole event was conducted with great zeal and enthusiasm.

Winners

Hair Style Competition:

I prize-Varshita Jain (IIIyr, EC), Charulata Gour (III yr, EC)

II prize- Anuya Srivastava (IVyr, EC), Apoorva Taragi (IIIyr, EC)

III prize-Monika Gaur (IV yr., EC), Ritu Raj (IV yr, EC)

Felicitation

"If you want to build a ship, don't drum up people to collect wood and don't assign them tasks and work, but rather teach them to long for the endless immensity of the sea."
 ~Antoine De Saint Exupery

T-Shirt Logo Designing Competition

Winners

WISE Logo T-Shirt Painting Competition:

I prize - Meenal Agarwal (III yr., EC)

II prize - Kalyani Sharma (III yr., EC)

III prize - Deepshikha Agrawal (III yr., EC)

Objective

This cluster focuses on the physical empowerment of women. The cluster also aims at making women strong, independent and yet mentally calm.

“Yoga teaches us to cure what need not be endured and endure what cannot be Cured.”

As women have to maintain a balance between home and work, stress and depression is increasing and yoga is the healthiest way to achieve a peaceful mind. The sports and defense club of WISE took the initiative to help the young ladies learn some great stress busting techniques.

Introductory Yoga Session by Ms. Sonal Chopra

A Yoga introductory session was organised at PCE on Friday March 27, 2015.

The main objective behind the session was to prepare students to become healthier, saner and more integrated member of the society and of the nation. The session was started with a Power Point Presentation describing the vision, mission, objectives and aims of WISE sports cluster by Sonal Rhode student of first year, IT branch which was followed by a documentary on ‘Women Empowerment’ prepared by Aishna Sudhanshu student of fourth year, Electronics and Communication Department. The documentary shows the various roles played by a women in different spheres of life. It emphasis on the problems faced by women. Through this documentary they were introduced to the great women achiever to encourage them to follow the same path.

Then, some Yoga practices were demonstrated by Dr. Sonal Chopra. She also introduced some of the Naturopathic treatments which students can perform everyday. Dr. Om Prakash Sharma while addressing the students emphasized that a person is said to be healthy if he/she is mentally alert, emotionally sound and socially effective. Mrs. Renu Singhi Advisor PAA appreciated the effort of WISE team with her words of wisdom and appreciation.

For the Fitness of our Body- Naturopathic Bath Treatment: Hot Foot Bath

This Treatment is especially useful for the people with headaches, neuralgia, toothaches, a deep cough, ovarian and menstrual problems, strong cold, indigestion, asthma, pneumonia, influenza, and any diseases related to pollution of the body, cold hands and cold feet. In fact it is valuable for any condition which requires detoxification-which is 95% of the diseases that people have.

Because of the heating of the blood in the feet and under legs, the pores of the skin of the entire body get open, and the patient starts sweat. This removes toxins from body. With increased circulation, abdominal and reproductive organs are strengthened, the menstrual cycle is brought back to normal and tensions around the heart are relieved.

For more Details - <http://amwellness.org/articles/hot-foot-bath/>

Objective

FAM, "Fight Against Mentality" a small group took an initiative to change the mentality of society towards the cases like Rape, Harassments, acid attack and many others which are faced by a "woman".

Many politicians and people believe that in such mishappenings, the fault is only of a girl and so they blame her but the members of FAM want people to realize that the fault is not always of a girl, its because of their pervert. Only the wrongdoers should be accused, not the bearers or victim and by giving such ridiculous statements they are only proving themselves uneducated and jerk. These absurd statements resist the suffered women to overcome from those mishappenings & forces our society to become more narrow-minded which ultimately create imbalance in our society. And among all these, who is suffering the most is only the "women" So FAM wants our society and people to think positive and act in a right direction.

Group Members:

Anita Choudhary (III yr, CS)
Arti Sharma (III yr, CS)
Bhawana Soni (III yr, CS)
Astha Agrawal (III yr, CS)
Jagrati Lalwani (III yr, CS)
Nidhi Solanki (III yr, CS)
Kritika Khandelwal (IIIyr, IT)
Preksha Singh (III yr, IT)

On April 10, 2015 an event regarding F.A.M (Fight Against Mentality) was organized in Arbuda Convention Centre at Poornima Institute of Engineering & Technology under WISE (Women in Science & Engineering). The F.A.M group was founded by eight girls of PCE of the branch CS & IT with a hope that their effort could affect the insensitive mind of the viewers.

The event was started with an act in which three main issues of our society i.e. Domestic violence, Acid attack and Eve-teasing were raised. Later on a documentary and an audio regarding the same were played to arouse the senses of the audience. The whole act was shown to the second year students of all branches of the PCE with department faculties. Dr. Om Prakash Sharma, Director, PCE motivated the students with his words of wisdom and Dr. Shuchi Dave, Chairperson WISE appreciated the girls and gave vote of thanks.

Standing Ovation By Audience

Heartily Thanks to Dr. S. M. Seth

AWIS

HISTORY

The **Association for Women in Science** started up in 1971 at the annual Federation of American Societies for Experimental Biology (FASEB) meeting in order to exchange of ideas and solutions to overcoming job discrimination, lower pay, and professional isolation. The creation of the Association for Women in Science (AWIS) was intended to make science a better place for women. The main issue areas that the Association addresses are fair compensation, work-life integration, attrition, and professional development. AWIS addresses these issues through various initiatives and publications including AWIS .

AWIS was founded in 1971 at the annual meeting of the Federation of American Societies for Experimental Biology (FASEB), after a series of champagne brunches organized by an informal women's caucus. After establishing an executive director and an office in Washington, DC, chapters were organized across the country for individual members. Early projects include the creation of the AWIS Educational Foundation (now known as the Educational Awards) to receive donations and award fellowships. AWIS focused on advocacy for women in science across all scientific and technical disciplines and at all educational levels. In 1997, AWIS won the Presidents Mentoring Award.

LEADERSHIP

ACTIVITIES

The Association for Women in Science is led by Executive Director and chief executive officer Janet Bandows Koster. She previously served as the Executive Director of the United German-American Committee of the USA, Inc. prior to becoming the CEO of AWIS. Ann Lee-Karlon serves as the President of the Board.

Activities of the association range from advocacy, news publications, mentoring, scholarships, job listings, conferences, speaking, and initiatives to raise awareness about gender bias in professional and disciplinary societies, as well as research-based, industry and university environments. The organization also works with national policy through Congressional advocacy and by participating in a variety of national coalitions.

INITIATIVES TO PROMOTE ENGINEERING TO WOMEN

As science and engineering have become more pervasive in society, women's participation rates in these fields have not seen a proportionate increase. According to Cuny and Aspray, this may potentially result in a lack of women's talent in the fields, which may further reduce employment opportunities for both employer and employee. In order to make engineering more appealing to young women, a broader acceptance criteria into such programs has been proposed. Specifically, admissions boards are encouraged to take other admissions factors into account such as: extracurricular accomplishments, applicants' desire to be admitted into the program, and communication skills. It has been strongly suggested that admissions boards prioritize ethnic diversity.

ORGANIZATIONS TO PROMOTE FEMALE ENGINEERING

- Society of Women Engineers – Nonprofit educational organization founded by Elsie Shavers in 1950 that aims to establish engineering as a desirable career path for women. Membership currently numbers 21,000.
- Anita Borg Institute for Women and Technology – Nonprofit organization founded by computer scientist Anita Borg in 1997. Institute's primary aim is to recruit, retain, and advance women in technology.
- Grace Hopper Celebration of Women in Computing – A series of conferences designed in 1994 to bring research and career interests of women in computing to mainstream society. Currently a subset of the Anita Borg Institute, and the world's largest gathering of women in computing.
- Robo gals – International student-run organization that aims to significantly increase the number of young women pursuing engineering as their future careers.

Kimber Lockhart is the Senior Director of Web Application Engineering at Box. Previously, she co-founded Inereo, a secure web-based document sharing and review service. Inereo was acquired by Box in 2009. She holds a B.S. in Computer Science from Stanford University. Lockhart holds a B.S. in Computer Science from Stanford University. During her junior in May of her senior year, the idea had developed into a more general "document feedback" concept. The team had acquired enough adoption to plan ahead for graduation and raise seed funding. In June, they moved into an office and Lockhart took on a business development role that grew to the position of CEO after graduation. The company launched in 2008, and was purchased by Box for an undisclosed sum in October 2009. She has spoken on the issues of women in technology. She is featured in the documentary *She++* by the Stanford women in computer science group.

Vanitha Narayanan, Managing Director, IBM India Private Limited and the Regional General Manager for India/ South Asia (ISA). Appointed to this leadership position in January, 2013, she is responsible for all of IBM's sales, marketing, services and global delivery operations in the India/South Asia region, including operations in Bangladesh, Nepal and Sri Lanka. India remains one of the fastest growing countries for IBM and has emerged as a strategic location within the company's global services delivery network. Since 2009, she has been a part of the IBM ISA business, serving in roles as the Sales & Distribution Leader and recently as the Managing Partner for Global Business Services (GBS). She is a member of IBM's Integration & Values Team which is comprised of senior Global Executives who are selected by the IBM Chairman. In 2012, Vanitha was inducted into the IBM Industry Academy, a select group of experts, designed to advance IBM's industry thought leadership and brand. Vanitha is a member of the National Council of Confederation of Indian Industry (CII) for 2013-14.

A third-year computer science student from IIT Bombay Astha Agarwal, 20, has been offered Rs. 2.1 crore package from social networking site Facebook. She had completed internship in May-to-July in California. She has received scholarship from Facebook and participated in Grace Hopper Conference-2014, world's largest gathering of women in computing.

Jocelyn Goldfein is responsible for new product design and architecture in Facebook's crucial engineering department. Her teams work on News Feed, search, and photos. Before Facebook, Goldfein was a vice president at VMware. Like many of the other women on this list, Goldfein is also a mentor helping young women enter the engineer field.

Ruchi Sanghvi (born January 20, 1982) is an Indian computer engineer. She was the first female engineer hired by the social –networking website Facebook. Sanghvi was Facebook's principal product manager, where she oversaw Facebook Platform and News Feed. She was responsible for the company's Platform product strategy and new product initiatives. Sanghvi was an early engineer at Facebook and one of the primary developers for News Feed. Prior to Facebook, she was a software engineer in the Real Time Communication Group at Oracle. Sanghvi holds a bachelor's and master's degree in electrical computer engineering from Carnegie Mellon University.

An institution where “discipline” comes first. An institution where “punctuality”, “co-ordination” and “management” mean everything. It is here in Poornima that the students are given equal opportunities to showcase their talent and I am one of them. Participating and winning in different colleges. Without Poornima’s support it would not have been possible, but the authorities were there with me at every point of time. I was given complete exposure to showcase my dancing and acting talents. Dancing is an art. It is the language of the soul which reflects through your body. Despite being a technical institution the college faculties supported me and encouraged me to move forth and participate is a big favor to me. I am glad to be a part of Poornima group and enjoyed my two year long journey here. I wish to spend the rest two years in this college the same way and enhance my talent to extents where I can be called “successful”.

Deepika Prakash (II yr., ECE)

Education is the most powerful weapon which we can use to change the world and college is the place which provide us with this education. Well, I must say, getting educated at Poornima College of Engineering is not that simple because of the hectic schedule but this results in making students more active and enhances the ability to perform multiple task at a time. The college management not only supports students in academics but also in other fields like sports , projects , workshops and cultural programs. From the beginning, along with academics, I was involved in sports activities which were conducted successfully in the annual fest ‘Aarohan’.College support encouraged me to participate at intercollege level sports tournaments. I was also selected for getting trained at NCC (National Cadet Corps) through our college. Also being a hosteller and a mentor, I had experienced special guidance and support from the college management.

Shweta Choudhary (III yr., EC)

Dark in the night it shines so bright , It stays in the arms of infinite might
The sun ,the moon, the meteors, the stars, stand alone, the Polaris with its light
The above alluring lines are not about the shining star but about the sky that resides it For me that sky is POORNIMA. To display my qualities , caliber and talent ,it always provided me the support I needed Starting from being top 5 participant in fresher’s , then being mentor of physics in hostel , this institute gave me confidence to grow and move further Apart from giving me platform to show my talent of classical dancing, Debating, Anchoring this college supported to build up my dance group “Mad Wings” which stood among top 10 Dance groups at IIT Jodhpur on india level After numerous of public confrontation at last i grabbed the running trophy of POORNIMA MANTHAN (an inter college debate competition)
To give my career a jumpstart the faculties and management helped me to get placement in iGate , a software MNC. Apart from all these Extra curricular Poornima always supported and guide me to maintain my academics as well.

“Talent exist everywhere but without platform its all in vain”

Ankita Sharma (IV Year, CS)

Alumni

“Your Alma Mater is always special & it is the soul mother.”

Same is true for 'Poornima College of Engineering' for me. It will always hold an important place in my life. I enjoyed my tenure of 4 years as a B.Tech student at PCE learning many new things, exploring myself, gaining confidence. It always provided me the right platform to showcase my skills. The confidence that my teachers showed in me had always played the role of morale booster. I always enjoyed organizing various events which helped me to learn time management and team work that are very beneficial in my professional life also. It was a great achievement for me & I owe it to the institute. So I would like to take this opportunity to express my heartfelt gratitude to my ALMA MATER for making me what I am today, helping me in believing in myself. Thanks to all my teachers who were always there to address our concerns. I am proud to be associated to this great Institute of knowledge.

"Absence makes the heart grow fonder. Dearly miss the wonderful college days!"

Vartika Gupta (INFOSYS LIMITED)

ऐ नौजवां! कब तक??

आज तेरे दुआओ की इन्तहा मैंने देख ली,
 तेरे अरमानो की कुव्वत-ऐ-परवाज मैंने देख ली
 ऐ नौजवां! कब उठ खड़ा होगा तु मुल्को -मिल्लत की हिफाजत में,
 तेरे गुंगेपन से उठती सदाओ से चीख की आवाज मैंने देख ली
 क्यु गफलतो में खो गया है तु, अपनी कीमत भूल कर,
 क्यु चला गया गलत राहों पर, तु तब्दील अपने उसूल कर
 कब उठेगा ऐ नादान! तु गहरी नौद से सो कर,
 क्या तु ये सब समझेगा, अपने चाहने वालो को खोकर
 वो दोशिजा जिसको तु छेड़ता है, वो भी तो किसी के घर की शम्मा है,
 औरत तो तेरे घर में भी है, जिसे प्यार से कहता तु बहन और माँ है
 कब तक खुदा की दी हुई इस नैमत को सताएगा,
 बता? कब तु ऐशो-इशरत भरी ज़िन्दगी छोड़ मुकदस -मुकाम पर लौट आएगा
 कितनी महफूज़ है आज औरत, तेरे होते दुनिया के इस आशियाने में,
 मुजम्मत करे भी तो किस से करे, अपनी ही इस मुल्क बैगाने में
 अजमतो -शान की मालकिन, बनाया है खुदा ने इस ने इस खातून को,
 कर देता है तु बदनाम, कदम कदम पर इसको ज़माने में
 बासिन्दा है तु आलम का, कब तक यहाँ रहेगा,
 इक दिन तो जाके उस खुदा के दर पर अपने गुनाहों की अदायगी करेगा
 तब सोचेगा, काश! समझ लेता आजिज़ी जो उस फर्द ने मुझसे थी करी
 काश! सुन लेता मैं चीखे उसकी दर्द भरी
 खुदा कसम! फिर तो पछताना भी तेरा जरा भर न काम आएगा,
 इक बाकि रहेंगे आंसू तेरे पास जो तु शब् -ओ-शहर बहाएगा
 तजकिया कर अपना, वास्ते खुदा अपने अखलाक बदल,
 मुलव्विश हो जा फरिशतो में, कर अपने अन्दर का शैतान कतल
 वाबस्ता होगा जब तु अपने नेक-आमालों कि शोहबत से,
 सबको देखेगा फिर तु अपनी नज़र-ए-मोहब्बत से
 यही कहना है "आबिद" का, इस पर जरूर तु गौर करना,
 नज़रे तु अपने आते कल के मुल्क की ओर करना
 इन्शा अल्लाह! बताऊंगा ज़िन्दगी रही तो ऐसा दिन भी आएगा,
 जब यही नौजवां तबका उठ खड़ा होगा और हर जुल्म दफन हो जाएगा
 जुल्मो को सुपुर्द-ए-खाक कर हम इस जंग-ए-आज़ादी में फिर से फतह पाएँगे,
 मिलकर हम सब एक ऐसा कारवां बनाएंगे
 अपनी जान कुर्बान करके भी इक औरत इज्जत-ओ-आबरू हम बचायेंगे,
 याद रखना उसी दिन हम एक अच्छे इंसान कहलायेंगे

जैनुल आबिदीन "आबिद"

मेरी माँ

माँ मेरी माँ प्यारी माँ मम्मा
 ओ माँ मेरी माँ प्यारी माँ मम्मा
 हाथों की लकीरें बदल जायेंगी
 गम की ये: जंजीरें पिघल जायेंगी
 हो खुदा पे भी असर
 तू दुआओं का है घर
 मेरी माँ मेरी माँ प्यारी माँ मम्मा
 ओ माँ मेरी माँ प्यारी माँ मम्मा
 बिगड़ी किस्मत भी संवर जायेगी
 जिंदगी तराने खुशी के जायेगी
 तेरे होते किसका डर
 तू दुआओं का है घर
 मेरी माँ मेरी माँ प्यारी माँ मम्मा
 ओ माँ मेरी माँ प्यारी माँ मम्मा
 यूँ तो मैं सब से न्यारा हूँ
 तेरा माँ मैं दुलारा हूँ
 यूँ तो मैं सब से न्यारा हूँ
 पर तेरा माँ मैं दुलारा हूँ
 दुनिया में जीने से ज्यादा उलझन है माँ
 तू है अमर का जहान
 तू गुस्सा करती है बड़ा अच्छा लगता है
 तू कान पकड़ती है बड़ी जोर से लगता है मेरी माँ
 मेरी माँ मेरी माँ प्यारी माँ मम्मा
 ओ माँ मेरी माँ प्यारी माँ मम्मा
 हाथों की लकीरें बदल जायेंगी
 गम की ये: जंजीरें पिघल जायेंगी
 हो खुदा पे भी असर
 तू दुआओं का है घर
 मेरी माँ मेरी माँ प्यारी माँ मम्मा
 ओ माँ मेरी माँ प्यारी माँ मम्मा

**WISE Salute**

"Don't be afraid of your fears. They're not there to scare you. They're there to let you know that something is worth it.."

Dr. Rekha Nair is an inspirational force to us all. Her outstanding performance during the tenure honoured her to the great heights. She's not only masterly of academic areas but also proficient in administration. Her innocuous ways of guidance make us to do our work with full zeal and spirits. We all are thankful for your kind support.

Malala Yousafzai for child Education

Malala Yousafzai was born on July 12, 1997, in Mingora, Pakistan. As a child, she became an advocate for girls' education. Malala Yousafzai defied the Taliban in Pakistan and demanded girls to be allowed to receive an education. On October 9, 2012 she was shot in the head by a Taliban gunman, but survived which resulted in the Taliban issuing a death threat against her. The shooting resulted in a massive outpouring of support for Yousafzai, which continued during her recovery. In spite of this, she has continued to speak out on the importance of education.

She gave a speech at the United Nations on her 16th birthday, in 2013 and was nominated for a Nobel Peace Prize in the same year. In 2014, she was nominated again and won, becoming the youngest person to receive the Nobel Peace Prize. She has also written an autobiography, *I Am Malala: The Girl Who Stood Up for Education and was Shot by the Taliban*, which was released in October 2013.

Some words from her speech at United Nations:

“Let us become the first generation to decide to be the last , let us become the first generation that decides to be the last that sees empty classrooms, lost childhoods, and wasted potentials.
 Let this be the last time that a girl or a boy spends their childhood in a factory.
 Let this be the last time that a girl is forced into early child marriage.
 Let this be the last time that a child loses life in war.
 Let this be the last time that we see a child out of school.
 Let this end with us.
 Let's begin this ending ... together ... today ... right here, right now. Let's begin this ending now.”

Nirbhaya Against Molestation

Tribute to Nirbhaya

2012 Delhi gang rape, an incident that generated widespread national and international coverage and was widely condemned, both in India and Abroad. The case involved a rape and fatal assault that occurred on 16th December, 2012 in Munirka, a neighborhood in South Delhi, whose rapists have

still not been brought to justice. The incident happened when a 23-year-old female physiotherapy intern was beaten and gang raped in a private bus in which she was travelling with a male friend .There were six others in the bus, including the driver, all of whom raped the girl and beat her friend. Thirteen days after the assault, she was transferred to a hospital in Singapore for emergency treatment, but she died from her injuries.

Subsequently, public protests against the state and central governments for failing to provide adequate security for women took place in New Delhi, where thousands of protesters clashed with security forces. Protests took place in major cities throughout the country. The victim has become widely known as Nirbhaya, meaning "fearless", and her life and death have come to symbolize women's struggle to end rape and the long-held practice of blaming the victim rather than the perpetrator.

A BBC documentary titled 'India's Daughter' based on the attack was broadcast in the UK on 4 March 2015.

"With the passage of time, the candles shall burn out and lose their flame...
 The flowers offered with devotion, shall in the absence of water, get dry and weathered out...
 The voices of protest both vocal and silent, shall lose their strength...
 But the 'fearless' (nirbhayata) fire that has been ignited, shall rekindle the flames in our hearts...
 The waterless dry and weathered flowers, shall be brought to life drenched by the tears in our eyes..."

With a burning throat the soul of 'Nirbhaya', shall be voiced in the entire universe...

That

I am the Mother, sister and daughter of my Bharat...

Respect and dignity are my birthright possessions ..

Bharat the country is my Mother...

Forget about me, become at least the recognised worthy face of your Mother..!!"

-Sh Amitabh Bachchan
 Actor(Mega Star)

"I speak not for myself but for those without voice... those who have fought for their rights... their right to live in peace, their right to be treated with dignity, their right to equality of opportunity, their right to be educated."

Malala Yousafzai

26 जनवरी, 1950 को अंगीकृत भारतीय संविधान में महिलाओं के लिए निम्नलिखित व्यवस्थायें की गईं:

- भारतीय संविधान का अनुच्छेद 14 में समानता का अधिकार दिया गया है कि किसी भी महिला का कानून के समक्ष समानता और विधियों के समान संरक्षण से राज्य वंचित नहीं करेगा।
- अनुच्छेद 15 (1) के अंतर्गत धर्म, मूलवंश, जाति, लिंग व जन्म स्थान के आधार पर किसी भी प्रकार के भेद भाव को प्रतिशोध किया गया।
- अनुच्छेद 15 (3) में स्त्रियों की विशेष स्थिति को ध्यान में रख कर विशेष व्यवस्था की गई, जिसमें स्त्रियों को उत्तरदायी न मानना असंवैधानिक है।
- अनुच्छेद 16 में धर्म, मूलवंश, जाति, लिंग व जन्म स्थान के भेद भाव का निषेध कर महिलाओं को भी लोक नियोजन में पुरुषों के समान ही अवसर प्रदान किये गए हैं अर्थात् समान कार्य के लिए समान वेतन।
- अनुच्छेद 21 नागरिकों को स्वतन्त्र, समानित जीवन, शिक्षा, स्वास्थ्य व अन्य आवश्यकताएं प्रदान करना।
- अनुच्छेद 23 और 24 स्त्रियों के अनैतिक व्यापार, दासप्रथा, बालाश्रम, बंधुआ मजदूरी आदि को भी निषेध किया गया है।
- अनुच्छेद 39 (क): पुरुष व स्त्री सभी नागरिकों को जीविका के पर्याप्त साधन प्राप्त करने का अधिकार देता है।
- अनुच्छेद 39 (घ): पुरुषों व स्त्रियों के लिए समान कार्य के लिए समान वेतन होना चाहिए।
- अनुच्छेद 51 (अ): नागरिकों के आधार-भूत कर्तव्य।
- अनुच्छेद 32 व 226: मूल अधिकारों के उल्लंघन की दशा में भारतीय नागरिक को याचिका दायर करने का समान अधिकार प्राप्त है।
- अनुच्छेद 39 (अ): विधि द्वारा न्याय की प्राप्ति के लिए पूर्ण प्रावधान बनाये जावे।
- अनुच्छेद 42 : स्त्रियों को विशेष प्रसूति अवकाश प्रदान किया जा सकता है।
- अनुच्छेद 44 : सबके लिए एक सिविल सहिता बनाया जावे।
- अनुच्छेद 325 : इस अनुच्छेद द्वारा धर्म, मूल मूलवंश, लिंग के आधार पर किसी व्यक्ति का निर्वाचक नामावली में नाम सम्मिलित करने के अपात्र नहीं मन जाएगा।
- अनुच्छेद 326 : व्यस्क मताधिकार 18 वर्ष की आयु वाले स्त्री पुरुषों को समान रूप से मिला हुआ है।

Ms. Anjali Jain
Asst. Professor
EE Dept.

MOTHER AS MANAGER

Mother is a blessing for all of us and nobody could replace mothers in the world. God created mothers because He could not be everywhere is how the saying goes. She carries us for nine months since then she continues to love and support us. She plays the role of a friend, guide and also a role model in our life. She makes sure that she takes care of all the things in the house may that be packing Tiffin boxes or to wake up on time.

In the evening also she comes back after work and prepares good dinner for us instead of being tired of the day's work. With lots of patience and care she looks after us. She finds time for everything that matters to us in our life.

She has shown us that with hard work and determination anything is possible. If she puts her heart on something, she doesn't give up until she sees results. A mother juggles with her work and is still able to take care of us. She always pushes us to go after our dreams.

A daughter is said to be the shadow of a mother. Every daughter should follow her mother's good qualities and even try to become more.

-Ms. Anchal Sharma
Assistant Professor ,I Year

WOMEN – THE HOUSE MAKER

The unsung heroin of Household Albeit,
She stands gallant and bold
Wears an armour of Love, Laughter, Smiles, Sighs
and Tears
Confronts all situations sans fear
An embodiment of Powers eight-
Power to withdraw, to merge, to cooperate
Power to withstand (endure), to face glorify all her
adornment,
Her inner beauty needing no ornaments!
Gentle as a dove where love and care make her life a
divine fare
Yet thunderous like a Lioness
To make the principles thoroughly fortified
Dignity and Royalty personified!
Like a swan scrupulously brings
Adds to the charms of life
And epitome of Powers Seven and eight
The power to judge and to discriminate!
Amiable by nature, smiles in adversity
Endures everybody with her sterling quality
Heals all with her tender touch
Disciplined she is, but not a law maker
Lets learn to honour
The True Home Maker!

-Ms. Anjali Jain
Assistant Professor,EE

UNLEASH YOUR POTENTIAL

Once upon a time a very knowledgeable saint was crossing a river in a boat. He asked the boatman whether he knew the Shlokas of Geeta? Has he read the Vedas? Did he know about the Shashtras? And every time the boatman replied with a NO. The saint made fun of the boatman and declared his half-life useless and let him down as he didn't know about any of these. After a while the boat started sinking, the boatman asked the saint "do you know how to swim?" this time the saint said no. The boat man laughed and said "now your life is completely useless!" This little story proves that you never know what talent you have and how important it is but each and every person has some or the other talent.

Today I reaffirm that you are good enough to do whatever you want in life and life is too short for you to paralyze yourself with doubts. Every person born in this world is unique in some or the other way. Each one of us is gifted with a talent which others may not have. Many of us feel that we are neither good at studies nor at sports or any other extracurricular activities. In case if you feel like there is some news for you-you are actually wrong! There's always a force around you that appears to be negative but actually shows you how to realize your destiny. It prepares your spirit and your will, because there is one great truth on this planet, whoever you are or whatever it is that you do, when you really want something it's because that desire it becomes your mission on the earth. Try new things, you never know what your hidden talent is! The first thing you have to do is to live in the moment. Don't compare yourself with others and start the new thing. You don't need to great to start but you must start to be great. Start small and give it your all. You do not become good by trying to be good but by finding the goodness that is already within you.

You are capable. You have much to learn and to give. You have so much more power and potential than you know. Always remember that nothing is too big or too small and sky is the limit. So don't doubt, don't talk about it but think the best about it. Live full and live up to your potential.

-Dr. Susmita Sharma
Associate Professor, I Year

Holding On To Your Silly Dreams

In the night sky that five year old, saw some tiny stars around the big old moon
And that novice human made it a point to reach there soon.

She prayed to the angles to take her to the stars
Oh! How unaware she was of the realities so harsh
To her surprise a glittery path, one day
Appeared on her window to take her to stars, let's say

But as soon as she took a step on that shiny byway
She fell in the garden and the path disappeared to her dismay.

She saw the path on her 8th, 12th and 17th birthday
And every time, she fell to the ground and of the path couldn't see single glittery ray.

This vicious circle started to seem inevitable.
Was this path a reality or her mind's fancy fable?

For the twenty five year old, holding on to the silly dream was becoming irritating

And now she was sure she was hallucinating.

The verve had now vanished

She fell asleep waiting for the path to banished
Suddenly many angles surrounded her bed and sang in unison

No matter of your dream how much others make fun

No matter how giddy your dream may appear

Form the clouds of doubt, you must steer clear.

And stick to reverie through every season

So to wake up every morning you have a pleasant unfulfilled reason.

Pie in the sky, it may seem

But make sure, hold on to your silly dream.

I yr., CS**

Famous women on inner strength

When things get tough, we discover that sometimes, our very worst enemy is ourselves. As humans, we can be so doubtful of ourselves and so self-conscious of our own power and brilliance. We refuse to celebrate our achievements because we believe something can go wrong or we fool ourselves to believe we don't deserve them.

There are days where I need to blast Beyoncé on repeat to remind myself that I am, in fact, awesome.

I felt stupid because as a student, you get rejected multiple times even if you're doing it right. Regardless, I felt crappy. Getting rejected in any aspect of your life feels like someone single-handedly ripped out your heart and made a protein smoothie with it. So I did what is necessary when facing setbacks: I got back up and kept working. No matter what, no one thing or person can hold you back from achieving your goals.

If you're having one of those weeks that makes you feel discouraged, lost, or dismayed, here are some AMAZING, inspirational quotes from smart, strong, powerful women we love and admire.

"Life is not easy for any of us. But what of that? We must have perseverance and, above all, confidence in ourselves. We must believe that we are gifted for something, and that this thing, at whatever cost, must be attained"

-Marie Curie

Look at a day when you are supremely satisfied at the end. It's not a day when you lounge around doing nothing; it's when you've had everything to do, and you've done it"

- Margaret Thatcher

**-Saloni Sharma

WOMAN'S WORTH

She gave life. She is a wife.

She is a mother and she is a friend.

She is a sister a survivor to the end.

Appreciate her, we don't dare.

Ask her worries, we don't care.

Wipe away her tears, they are invisible as air.

She works cooks and clean.

She laughs, helps comfort, and hides her pain.

When you struggle she pulls you through

All this is she and what do we do?

Complain and create a mess.

Provide stress and leave her feeling depressed..

Push her away and ignore her advice.

Tell her she is nothing without thinking twice.

You call her nothing.

I call her Strong, Smart, Sensual. I call her WOMAN!

टीचर्स के लिए लाइव लेक्चर

जयपुर। मानव संसाधन विकास मंत्रालय के आईआईटी रिमोट सेंटर के तौर पर पूर्णिमा कॉलेज ऑफ इंजीनियरिंग में मंगलवार को 'कंट्रोल सिस्टम' पर वर्कशॉप शुरू हुई। दस दिवसीय इस वर्कशॉप में राज्य के विभिन्न इंजीनियरिंग कॉलेजों के करीब 50 फैकल्टी मेंबर्स शामिल हुए हैं। यह वर्कशॉप मानव संसाधन विकास मंत्रालय के नेशनल मिशन ऑन एजुकेशन थू आईसीटी के तहत आयोजित की जा

रही है। 12 दिसंबर तक चलने वाली वर्कशॉप में इंटरनेट के जरिए एबीआईईडब्ल्यू तकनीक के माध्यम से आईआईटी खड़गपुर से लाइव लेक्चर होंगे। कॉलेज के डायरेक्टर डॉ. ओपी शर्मा ने प्रतिभागियों को बताया, कि इंजीनियरिंग फैकल्टी मेंबर्स को कंट्रोल सिस्टम के बारे में अवेयर करने और टीचिंग स्किल डवलप करने के लिए यह वर्कशॉप आयोजित की जा रही है।

पूर्णमा कॉलेज में कार्यक्रम हुआ

जयपुर। पूर्णिमा स्कूल ऑफ मैनेजमेन्ट में एमबीए विद्यार्थियों के लिए दो दिवसीय ओरिएंटेशन कार्यक्रम आयोजित किया गया। वरिष्ठ विद्यार्थियों ने कनिष्ठ विद्यार्थियों का तिलक लगाकर स्वागत किया। राजस्थान विवि के डॉ. पीडी शर्मा, आरएम पोद्दार इन्स्टीट्यूट के प्रो. हर्ष द्विवेदी ने विद्यार्थियों को शुभकामनाएं दीं। चेयरमैन डॉ. एसएम सेठ ने कड़ी मेहनत करने का संदेश दिया।

दो दिवसीय गियरअप वर्कशॉप का आयोजन

सिटी रिपोर्टर • पूर्णिमा कॉलेज ऑफ इंजीनियरिंग में दो दिवसीय गियरअप वर्कशॉप का आयोजन किया गया। ये वर्कशॉप इंफोसिस की ओर से चुने गए 182 स्टूडेंट्स के लिए किया गया। जिसका उद्देश्य स्टूडेंट्स को जावा टेक्नोलॉजी और आरडीबीएमएस कॉन्सेप्ट से अवेयर करवाना था। वर्कशॉप के कोर्डीनेटर मनीष कुमार शर्मा थे।

फैकल्टीज ने सीखे इफेक्टिव टीचिंग के गुर

सिटी रिपोर्टर ► इंजीनियरिंग फैकल्टी मेंबर्स को टीचिंग और लर्निंग की इनोवेटिव स्किल से रूबरू कराने के उद्देश्य से पूर्णिमा इंस्टीट्यूट ऑफ इंजीनियरिंग एंड टेक्नोलॉजी में इंजीनियरिंग वर्कशॉप का आयोजन किया गया। विप्रो टेक्नोलॉजी के मिशन 10-एक्स की ओर से आयोजित इस वर्कशॉप में करीब 30 फैकल्टी मेंबर्स ने भाग लिया। तीन दिवसीय इस वर्कशॉप में ग्रुप डिस्कशन, ब्रेन स्टोर्मिंग सेशंस के जरिए विभिन्न कॉलेजों के फैकल्टी मेंबर्स को कम्प्यूनिकेशन स्किल, टीम वर्क, लर्नर सेंट्रिक एप्रोच जैसे विषयों के बारे में जानकारी दी गई।

मिले बेहतर इंजीनियर बनने के टिप्स

मेट्रो रिपोर्टर

जयपुर ■ 14 अप्रैल

पूर्णमा कॉलेज ऑफ इंजीनियरिंग में सोमवार को इशरे स्टूडेंट चैप्टर एक्टिविटी के तहत 'थिंकिंग लाइक एन इंजीनियर एंड सोसायटल चैलेंजेज' विषय पर सेमिनार आयोजित की गई। इसमें मिशिगन, यूनिवर्सिटी, यूएसए के पूर्व प्रोफेसर व अमेरिकन सोसायटी ऑफ हीटिंग, रेफ्रिजरेटिंग एंड एयरकंडीशनिंग इंजीनियर्स के विक्टर गोल्ड स्मिथ ने स्टूडेंट्स को बेहतर इंजीनियर बनने के टिप्स दिए।

उन्होंने कहा कि हर इंजीनियरिंग स्टूडेंट को हमेशा प्रॉब्लम सॉल्विंग एप्रोच रखनी चाहिए और सुरक्षा को फोकस करते हुए क्रिएटिविटी और साइंटिफिक मैथड्स के साथ कार्य करना चाहिए। उन्होंने बताया कि स्टूडेंट्स को अपनी लर्निंग के दौरान ट्रेनर से अधिक से अधिक प्रश्न पूछकर अपनी जिज्ञासा को शांत करना चाहिए। साथ ही विक्टर गोल्ड स्मिथ ने बताया कि समाज की विभिन्न चुनौतियों के समाधान में एक इंजीनियर किस प्रकार अपनी भूमिका निभा सकते हैं।
