

A one day Seminar on “**Energy Conservation in Buildings & Efficient Lighting Systems**” was organized on Saturday, October 27th 2012 by Poornima College of Engineering (PCE), Jaipur and sponsored by Indian Society of Lighting Engineers (ISLE), Rajasthan State Centre, Jaipur. On this occasion the **Student Chapter, ISLE, RSC** of PCE was also inaugurated.

The programme started with the welcome address by **Dr. R. P. Rajoria**, Director, PCE followed up by an introductory presentation on ISLE by **Shri R.S. Saxena**, Chairman, ISLE, RSC. On this occasion following experts delivered talks on various important aspects of Energy Conservation in Buildings & Efficient Lighting Systems as per details given below:

- **Shri Arvind Kaul**, Director, Enertrak Instruments Pvt. Ltd., Jaipur delivered talk on “Energy Economy & Introduction of LED Lighting” and covered that systematic review of the Energy Consuming Equipments in a building provide useful information for energy saving up to 30%.; the energy audit system reduces need of cooling, wiring, cabling and carbon emission; the energy management process involves three steps: Audit, Action and Analysis.
- **Shri B.M. Chandana**, Director, Genesis Integrated Systems, Jaipur gave motivation talk on dreams and told that negative thoughts are the major poison for dreams. Three facts of life are beautifully explained by him including life has no pause button, dream has no expiry date and time takes no holiday. He added that one should love and motivate one-self regularly to achieve goals of life and fulfill the dreams.
- A documentary on Energy Crisis was also shown to students.
- **Shri Prashant Bajpai**, Treasurer, ISLE, RSC discussed about LED and its importance.

The programme ended with the vote of thanks delivered by **Dr. Manoj Gupta**, Secretary, ISLE, RSC.
