

EXPLORING ENGINEERING - PRAYOGAM - 2K12

FINAL RESULTS

The need for ongoing exploration and innovation is critical in today's engineering world and it demands the highest level of creativity. With the objective of creating and enhancing knowledge of research in the minds of budding engineers Poornima Foundation held a two day technical project exhibition **PRAYOGAM 2k12** on March 11 & 12, 2013. More than 1500 projects were exhibited by the students at four different campuses **Poornima College of Engineering, Poornima Institute of Engineering & Technology, Poornima Group of Institutions and Poornima University.**

PRAYOGAM 2k12 offered a platform for students to present and exhibit technical knowledge and skills acquired by them in their course of engineering. **PRAYOGAM 2k12** accentuated Poornima philosophy- of giving importance to conceptual learning and implementation rather than mere study of theory to retain knowledge. From every Department First, Second and Third prize winning projects were selected. The campus wise participation & winner details are as (The result of Mechanical Branch is awaited) –
